AMERICANS OPEN PARIS DRIVE

STEEL-TIPPED U. S. COLUMNS PLUNGING TOWARD CAPITAL

SWIFT ENVELOPMENT OF BRITTANY COST GERMANS 16,700 MEN

By ALTON L. BLAKESLEE
Associated Press War Editor

Steel-tipped U. S. columns plunged eastward on a 53-mile front toward Paris today, menacing the rail-and-road city of Le Mans 100 miles from the French capital, after a swift envelopment of Brittany netting 13,300 prisoners and leaving 3,400 Germans dead on the field.

Simultateously, British forces broke across the Orne river, threatening to turn the enemy hinge line below Caen. Swiss and British reports said the Nazis already were evacuating Paris.

The enemy struck back this morning with his largest counterattack of the invasion, throwing in at least four armored divisons between Mortan and Sourdeval—in the sector below Vire—and piercing as deep as three miles. But Allied oficers said the attack was being pounded back, with Allied air forces "having a field day."

Armored American drives were spearing toward Paris through disorganized German defenses, and 500 to 750 heavy U. S. bombers tore up supply depots and communications line behind the front. Five hundred more bombers from Italy pounded two synthetic oil plants in Germany.

Other doughboys battled for five key ports on the Breton Peninsula, and seized three more towns in mopping-up operations.

Canada for the first time has a separate army formation in battle, it was disclosed, with the Canadian First rmmy fighting on the Allied left flank in Normandy. The Allies now have taken some 20,000 square miles or nearly one-tenth of continental France.

Paris lay less than 140 miles ahead of the lightning U. S. advances, and even closer to the British second army left wing which, in a sudden new surge, drove a wedge across the Orne river deep behind the stout enemy hedgehog positions below Caen.

The Allies captured Vire, last Nazi anchor in western Normany. U. S. patrols reached Domfort 20 miles to the south, widening the great American power push from the base of the Breton peninsula. On the line below Domfort, General Bradley's men and tanks were driving eastward on Paris after hopping the Mayenne river line at five points and seizing Mayenne, Laval, and Chateau-Gontier, the latter town only 24 miles north of Angers.

LeMans Menaced

The rail and road hub of Le Mans 100 miles southwest of Paris was under direct menace. Bombers slashed Nazi road lines ahead of the U. S. sweep.

The Russians still beat in from the east. Another Soviet army—the 11th thrown in action this summer—toppled the old-rich town of Drahobycz in old southern Poland, just before Carpathian mountain passes into Czechoslovakia.

To the north other Red army soldiers crunching toward East Prussia swept up 30 villages, and fought within 5 to 25 miles of the border of that German territory. They were within 50 miles of Tilsit in East Prussia. The battle for

POST-WAR SECURITY TALKS POSTPONED AT REQUEST OF RUSSIA

ANGLO-AMERICAN AND RUSSIAN PHASE OF FOUR-POWER TALKS DELAYED

WASHINGTON, Aug. 7.—(AP)—Acting Secretary of State Stettinius announced today that the post-war security talks hav been postponed until August 21 at the request of Russia.

The Anglo-American - Russian phase of the four-power conversations was scheduled to begin in Washington August 14, with discussions among the United States, Britain and China to follow upon their conclusion.

Stettinius told his news conference that the Russian government found it needed more time for preparation in Moscow before Soviet representatives start for Washington.

He said delay probably would save time in the end.

He said Moscow had not yet officially informed Washington on who would head the Russian delegation, but that word was expected shortly.

Speculation has centered about Vice Commissar for Foreign affairs Maxim Litvinoff, former Soviet ambassador to Washington. Stettinius will head the U. S. delegation, and Sir Alexander Cadogan, permanent undersecretary for froeign affairs, will head the British delegation.

The Russians earlier had delayed opening the conference at the end of July, and it is believed that they are preparing fairly extensive plans to put up to the other two powers.

Zephyr Crashes Into Freight; 15 Persons Injured

Fifteen persons were injured Saturday when the southbound Burlington and Rock Island Zephyr, crack streamliner train, due here at 6:10 p. m., crashed into the rear of a freight train standing on the main line a short distance north of First Avenue, local Burlington line officials said.

The caboose of the freight was demolished, but none of the crew of either train was injured. After a few hours delay the Zephyr resumed its run to Houston under its own power. The fact that the Zephyr had slowed down for the station probably prevented heavier casualties.

The line north was blocked several hours and Cadets from Corsicana Field, who were being transferred to Majors Field, Greenville over the Burlington-Rock Island lines were held up until the track could be cleared.

Eight of the injured were carried to the P. and S. Hospital, five to the Corsicana Hospital and Clinic and two to the Navarro Clinic for treatment. Hospital attendants reported that none of the injuries appeared to be serious. All those carried to the P. and S. Hospital had been dismissed or transferred by 9:30 Saturday night.

Only two remained in the Corsicana Hospital and Clinic Monday morning. They were Mrs. E. O. Long, Corsicana, and R. L. Culberson, Houston. All were reported doing well. None remained in the other hospitals.

Back, head and leg injuries predominated, acording to hospital reports.

The list of injured included, R. L. Culberson, Houston; Mrs. E. O. Long, Corsicana; Mrs. Berneice Ekberg, Dallas; Mary Johnson, colored, Houston; David Blair, colored, Corsicana, all taken to the Corsicana Hospital and Clinic.

Mrs. Jennie Belle Burris, Dallas, and Caroline Lawhorn, age four years, taken to the Navarro Clinic.

Lee G. Houston, colored, cook on the Zephyr, who had a severed artery in his left arm; Richard Henry Simms colored, Osborne Hudson, colored, Ft. Worth; Tommie May Hudson colored Ft. Worth; Mrs. C. M. Daniels, Fort Worth, Judge H. C. Nash, Corsicana; Mrs. Ida Ferne Davis, Dallas, and Mrs. Ellen Brown Dallas all taken to the P. and S. Hospital.

Sutherland-McCammon and Corley ambulances answered the call.

AMERICAN WARSHIPS STORM FRONT DOOR JAPANESE HOMELAND

STAB AT BONIN ISLAND, WIPE OUT TOWN AND DAMAGE 41 JAP SHIPS

By J. B. KRUEGER
Associated Press War Editor.

American warships for the first time in this war have turned their guns on the Bonin Islands, on Japan's front door, wiping out a Japanese town on Chinchi Jima and sinking or damaging 41 ships of an enemy convoy.

The stunning two-day stab in the Bonins, 600 miles from Tokyo, was announced las tnight by Adm. Chester Nimitz. It was the highlight development of a quickening Pacific war otherwise notable for cracking Japanese morale on New Guinea and the still-successful battle of Chinese troops to hold Hengyang.

The fast U. S. carrier force struck into the Bonin and Kazan islands Thursday and Friday. They caught a convoy, which presumably was bringing in supplies or reinforcements for these islands constituting the innermost barrier of Japan's ocean defenses.

Sunk: Five destroyers or destroyer escorts, five cargo ships, one oiler, two smaller vessels and several barges.

Fires and possibly sunk: One light cruiser and five smaller craft. Thirty others were damaged. Some of the barges were carrying troops.

Shelling Devastating.

The warship shelling, followup to seven raids by fleet planes since June 14, was devastating. Said the communique: "Omura town on Chichi Jima was destroyed."

Chichi, main island of the Bonins, also was hit by planes, as were Haha, Muko and Ano in the same group and Iwo Jima in the Kazans, 150 miles southward. Twelve enemy planes were destroyed against a loss of 16 U. S. aircraft and 19 U. S. airmen

An outstanding fact of the Bonin assault was that the American ships boldly stayed around for two days, time enough for Japan's admirals to send help if they had so elected. They didn't which throws into strong relief their excruciating problem of whether to throw their navy headlong against the ever-growing U. S. fleet.

Between Tokyo and Marianas.

The Bonins stand between Tokyo and the Marianas, wherde U. S. troops are pressing remnant Japanese toward their bloody end on Guam. The Americans took two more of Guam's villages in a steady push to Gum's north end.

ELEVEN RED ARMIES HAMMER AT GERMAN EAST WALL MONDAY

TOUGHEST OPPOSITION ENCOUNTERED DURING SUMMER OFFENSIVE

LONDON, Aug. 7.—(AP)—The Polish oil center of Boryslaw and the nearby German stronghold of Sambor in the Carpathian slope country were captured by the Russian army today, Marshal Stalin announced in successive orders of the day.

Boryslaw is five miles southwest of the companion oil center of Drohboycz, which the Red army captured yesterday. The Galician petroleum centers were the most important in old Poland and second only to the Ploesti fields of Romania as a source of German oil. TheBoryslaw fields are connected by pipeline with those of Drohobyvz, which produced about 700,000 tons of oil a year.

The Fourth Ukrainian army group of Col. Genivan Uetrov captured Boryslaw "large center of the oil industry in the Western Ukraine," Stalin's second order of the day said.

Sambor lies 42 miles southwest of Lwow.

By DANIEL DE LUCE

MOSCOW, Aug. 7.—(AP)—Eleven Russian army groups hammered with artillery and bombers today at the steel foundations of Germany's east wall based on Krakow, Warsaw and the forested border of East Prussia, encountering the toughest opposition in the 46-day summer offensive.

Toward the southern extremity of the 1,200-mile meandering front, the Russians captured the oil and communications center of Drohobycz, chasing the Germans in a bloody rout deep into the Carpathian mountain approaches to the Czech-Slovak border. Red planes hounded the fleeing enemy remorselessly, after destroying six troop and oil trains at the Drohobycz station.

German resistance stiffened with infantry and armored reserves now making a final stand to save the reich from concerted invasion. The Russians, capturing 30 villages in the north, stood five to 25 miles from East Prussia. In the south beyond the breached Vistula river line, they were within 75 miles of German Silesia, highly industrialized coal region. In this area they were but 30 miles from the Polish city of Krakow.

STATE DEMOCRATIC COMMITTEE COUNTED VOTES IN PRIMARY

BEAUFORD JESTER LED TICKET WITH 850,138 VOTES LISTED

AUSTIN, Tex., Aug. 7—(AP)—The state Democratic committee today formally canvassed the votes cast in the party primary July 22, finding that Coke R. Stevenson won re-nomination for Governor with 696,586 votes.

His nearest opponent, Mrs. Minnie Fisher Cunningham, received 48,039 votes. The greatest number of votes cast for any one candidate was 850,138 for Beauford Jester, unapposed for Railroad Commissioner.

The committee met the day following a caucus of pro-Roosevelt Democrats, who set up an organization with the double-barreled objective of lining up Texas' 23 electoral votes for Roosevelt and Truman, and of taking over control of the party organization.

J. A Phillips of Houston was named by the executive committee as chairman of the sub-committee to canvass the primary vote.

It found that in the race for Lieutenant Governor, the final count was: Lee Satterwhite 240,632; Mat Davis 67,310; William David Turner 71,470; John Lee Smith 394,501. This obviates possibility of a runoff.

GERMANY AND FRANCE HEAVILY BLASTED BY AMERICAN BOMBERS

OIL PLANTS HIT IN GERMANY; VITAL TARGETS IN FRANCE BOMBED

LONDON, Aug. 7.—(AP)—More than 500 U. S. heavy bombers blasted at two synthetic oil plants deep in the reich today in concert with from 500 to 750 Liberators and Flying fortresses which struck at vital targets over a wide area of France.

The Fifteenth air force sent its heavyweights from Mediterranean bases to Blechhamer, 75 miles southeast of Breslau, where they scored hits on two plants which produce much of the German army's high grade motor fuel. The Germans threw up smoke screens and interceptors swarmed into the air to guard these plants, one of which is the third largest nazi synthetic plant still operating, but the bombers fought through and dropped their loads visually or by instrument.

Another force of Liberators, roaring into the Balkans, pounded an enemy airfield at Alibunar, 21 miles northeast of Belgrade, and oil installations on the Danube at Novi Sad, northwest of Belgrade.

Berlin said other attackers, roaring in from the south, were over upper Silesia, Moravia and lower Austria, and the day shaped up rapidly as one of far-flung aerial blows against all quarters of Hitler's crumbling continental fortress.

While British heavy bombers rained explosives on the enemy's important north-south supply routes last night, Mosquitos ranged over Germany and a wide area of France, hammering targets near the battle zone and 100 miles beyond.

Germans Launch Their Heaviest Counterattack

By WES GALLAGHER.

WITH THE U. S. FIRST ARMY IN GRANCE, Aun. 7.—(AP)—The Germans today launched their largest counter-attack since the landings in France, using at least four armored divisions between Mortain and Sourdeval in a drive aimbed at splitting the Normandy and Brittany forces.

The attack, launched this morning, made penetrations up to a depth of three miles in the area of Cherencs La Rousse, but was being held and pounded by artillery and air forces.

A high American officer said the German attack was not expected to make much progress and that the result would be destruction of armor which the enemy could ill afford.

"The air forces are having a field day," he commented.

Another penetration was made toward Juvigny, and the Americans were driven out of Mortain, but they still held the high ground around the village. To the north of the sector the Amerlians captured Vire.

The German thrust was aimed at Avranches. It was the largest co-ordinated enemy blow at the Americans since D-Day, and the divisions making it had been drained from various sectors of France.

Some crack American units were meeting the attack.

RAF rocket-spitting Typhoons teamed up with the American air force to strike full force at the German armor.

The attack was on a narrow eight-mile front and was concentrated.

WAR ANALYST SAYS LOOSE LEFT WING OF HITLER'S NORMANDY LINE IS SPOT TO BE WATCHED

By DeWITT MACKENZIE
Associated Press War Analyst.

The most fascinating spectacle of the flaming battle-fronts today—and a key situation to watch—is that loose left wing of Hitler's Normandy line which is flying wild like a pennant in a hurricane.

It was the tearing away of this Naiz flank from its coastal anchor which let the American armored forces loose to rampage through Brittany. Now it's being sprung back like a turnpike toll gate to open the rote to Paris, as witness the glad news that Yankee columns achieved the crossing of the Mayenne river barrier in five places and are roaring on towards the French capital in the favorable open country between the Seine and the Loire rivers.

That lashing pennant is symbolic of Hitler's whole position at this crucial moment—both in the fighting zones and on the home front. Just as he is trying frantically to stabilize that Normandy line, and also keep it from being torn away from its right anchor at Caen, where the Allies are attacking again today, so he is straining every nerve to reorganize his civilian war effort in face of the recent revolt organized by the Prussian generals.

One of General Montgomery's senior staff officers yesterday declared that "the next two or three weeks may be the most critical of any time of the war for Germany." That's true not only in the military sense but as regards the crisis within the Reich. Hitler himself acknowledged this in his statement to Nazi party leaders last Friday when he said:

"I am not afraid to wage battle against outside enemies. x x But I must have certainty that in the rear there is absolute security, loyal confidence and faithful cooperation."

The Fuehrer is facing the monumental task not only of repairing the shaken morale of his troops but of his people. He must do this at a moment when both his Eastern and Western fronts are being riddled with holes, and there's no question that the disaffection had deep roots

The next three weeks may indeed vastly clarify the war picture. We already know Hitler is beaten—and he knows it—but we don't know how long he may be able to hang on. His every move indicates his determination to fight to the last ditch if he can get his army and home front to support him. Three weeks may disclose his prospects.

GERMANS WERE STILL SHELLING FLORENCE SOUTHERN SECTION

LITTLE ACTIVITY ALONG ITALIAN FRONT DURING PAST WEEK-END

By NOLAND NORGAARD

ROME, Aug. 7—(AP)—Big German shells continued to land today in the southern portions of Florence, which is in Allied hands, but Gen. Sir. Harold Alexander's headquarters announced "there will be no need for the city itself to become a battlefield."

An Allied headquarters communique said south African troops had made contact with the enemy on the north banks of the Arno river within Florence. An Allied spokesman explained, however, that "we have not yet had more than reconnaissance patrols over the river, and these have returned."

He added that "apart from small parties with machine guns on the north bank, there is little enemy activity in the town," and said the Nazis were devoting their major efforts in strengthening defenses intended to hurl back any Allied efforts to cross the river on either side of Florence.

The Allied command announced more than 50,000 prisoners had been taken by the Fifth and Eighth armies in the offensive from Cassino to Florence. The total might have been higher but for Field Marshal Albert Kesselring's decision to blow up Florence's bridges.

Avoid Same Mistake

An enemy oficer who deserted to the Allied lines said the German command had recently stressed the importance of avoiding the "same mistake as in Rome, by leaving the blowing up of bridges until is was too late"

Both east and west of Florence, the Eighth army was mopping up the few enemy footholds left on the

Texas Heat Wave Shifts Back Into High Gear Monday

(By The Associated Press.)

The 13day heat wave appeared to be shifting back into high gear today following a slight respite in some Texas areas during the weekend. Over the state the sun burned down and weathermen saw no relief in sight.

The Dallas weather bureau said it probably would take a tropical disturbance in the Gulf of Mexico to dispel the terrific temperatures.

The mercury dropped into the nineties in a number of sections yesterday but the crop of 100-plus readings still was bountiful.

Wichita Falls stood out like a scorced thumb with the day's high reading—107. Fort Worth had 102; Dallas 101; Waco 100; Sulphur Springs, (East Texas) 102 and Laredo, 104. Amarillo recorded 97; Abilene, 97; Pampa, 95; Big Spring, 94; Wink 92; Lubbock, 91; Clarendon, 99; Austin, 99; and Brownsville 96.

During the 13-day period, at least seven deaths have been attributed to the excessive heart.

U. S. Bombers From England Blast At Polish Factory

MOSCOW, Aug. 7—(AP)—American heavy bombers from England with Mustang escorts attacked a German aircraft factory yesterday at Rahmel, ten miles northwest of the Polish port of Gdynia, and landed on Russian bases without loss.

Crews from the Eighth Air Force flight reported excellent bombing results and said the objectives was covered by bursts. Flames and smoke spouted upward as the group flew on toward Russia.

Anti-aircraft fire was heavy at some points along the long route but enemy fighters were encountered only in weak strength.

The attack was the 20th operation in which American planes have used Russian bases of the Eastern Command. The first shuttle bombers landed in the Soviet Union June 2.

Wyndia, a city of 113,000, lies at the north end of the Polish Corridor and some of the first shells of this war fell there.

PRO-ROOSEVELTITES PLAN ORGANIZATION TO TAKE OVER PARTY

WOULD LINE UP ELECTORAL VOTES AND TAKE OVER PARTY CONTROL

AUSTIN, Aug. 7.—(AP)—Pro-Roosevelt Democrats today set up an organization with the double-barreled objective of lining up Texas' 23 electoral votes for Roosevelt and Truman, and of taking over control of the party organization.

Confident that they had enough votes on paper to control the Sept. 12 covention in Dallas—where they hope to re-instruct the electors or substitute new ones for those who will not pledge themselves to ballot for the national party's nominees—they first want to make sure all their voting strength is on hand.

About 50 members of the faction caucused here yesterday, on the eve of today's session of the state Democratic executive committee. The executive committee will canvass the returns of the July 22 primary, declare the winners or certify run-off race names for printing on the Aug. 26 ballot, and compute the voting strength of each county's delegation to the state convention.

GERMANS LAUNCHED MOST DETERMINED OF COUNTERATTACKS

FOUR ARMORED NAZI DIVISIONS THRUST INTO ALLIED LINES

By GLADWIN HILL

SUPREME HEADQUARTERS Allied Expenditionary Force, Auf. 7.—(AP)—The Germans today struck their most furious counter-blow at Americans since D-Day, shooting four armored divisions to a depth of about three miles into the thinnest Allied coastal strip east of Avranches.

The counter-attack, described in front line dispatches as the most concentrated the Germans have yet made in France, apparently was aimed at outflanking four American spearheads pointing dangerously toward Paris and at separating Lt. Gen. Omar N. Bradley's American forces in Brittany from the British forces to the north in Normandy.

The Germans in their first rush recaptured Mortain, cutting the road behind the most advanced Bradley spearhead at Domfront where it was aimed at Paris, 135 miles away.

Still Hold High Ground.

The Americans were said to still hold the high ground around Mortain, however, and the German thrust was met by a hurricane of fire from hundreds of guns and Allied air forces.

To the north, however, the Americans, who earlier had achieved a junction with the British around ire, captured Vire, an important road hub nine miles above Sourdeval. The Yanks were in a position to press on the flank of the German advance.

The net result of the German thrust, a high American officer said in France, would be the destruction of much ormor which the enemy could ill afford.

British Cross Orne.

To the north, tne British thrust a new Paris-pointed spearhead across the Orne on a two mile front which threatened to sweep away teh enemy hinge below Caen where the Germans' week-long stand already was mocked by the American run around their dangling southern flank.

Supported by a close Allied Naval blockade which already had broken up three German convoys apparently attempting a "little Dunkerque" from Brittany, American armor and infantry teams captured four more towns in the Breton peninsula in the closing stages of an offensive which promised to clinch control soan of the ports of Brest, St. Naazire, Nantes, Lorient and St. Malo.

St. Malo, an ancient sea fortress and fishing port on Brittany's north coast, was under attack by strong forces, which broke through the outer premiteter of landward defenses at Chateauneuf. In spite of the order of the commander to fight until the last man, 500 of a garrison estimated at 2,000 to 3,000 men, surrendered under a bombardment of shells, bombs and leaflets carrying an ultimatum to lay down their arms.

GOVERNMENT MIGHT CRUSHES STRIKERS IN PHILADELPHIA

FEPC ORDER TO TRANSIT COMPANY WINS AT CONSIDERABLE COST

PHILADELPHIA, Aug. 7.—(AP)—The army restored normal transportation service in Philadelphia today and fired four leaders of the unauthorized walkout that gave the nation's second largest arsenal a "nightmare week," cut war production and caused racial violence.

An army spokesman reported that at 10:30 a. m. service was "100 per cent normal, with every vehicle moving on schedule and soldiers guarding every vehicle."

The strike leaders were discharged as they reported for work. The four, James H. McBenamin, Frank P. Carney, William C. Dixey and Frank Thompson, are free on $2,500 bonds pending hearing August 14 on charges of violating the Smith-Connally act.

Only 13 of the Philidelphia Transportation Company's 6,000 operating employes failed to report at their scheduled time, an army spokesman said, adding "It is not yet known how many of them will be able to present medical certificates of illness to excuse their absence."

Maj. Gen. Philip Hayes who took over the PTC for the army warned the employes that "any man who isn't back on his job at the scheduled time—zip! He will get no job for the duration—and the duration may be a long time.

Production soared again in this second largest arsenal of the nation and tension between negroes and whites eased.

The strike had been lost—eight negroes were called to resume training as trolley motormen. the issue that caused the stoppage, but whether they had reported for work could not be determined at once. The army referred questioners to General Hayes' state-

CORSICANA, TEX., AUG. 8, 1944

THE WIDENING CRACK

Himmler has the German revolt under control. That's what the Nazi radio says. It means that he has arrested many officers, slain some, driven others underground. Hitler, it is said, has gone into hiding. That's one kind of control.

But when it is found necessary to call for votes of loyalty from soldiers, when it is necessary to decree that the Nazis salute replace the military salute for every soldier and officer, as a sort of test and shibboleth, that is a clear indication that all is not well.

It is entirely reasonable that disorders should occur. In France, the Maquis, for long mere saboteurs, mosquitoes, irritating the Nazis in small ways but unable to come out into the open, are now a formidable army. Thus in Germany the underground now takes hope from the disagreement between old-line army and Nazi government. But its time has not yet come.

Revolution is not the word for what is beginning in Germany. The first stage will doubtless be civil war between the two governing powers, Army and Nazi. Out of it may later come a strong stand for some form of government by the people, but it seems evident that a bloody terror is coming first.

Meantime it is the American home job to work at full force till the last moment. Only thus can the war be brought soon to a successful close.

SKINS OF FRUIT

Fruit is a valuable part of the normal diet. Children love it and at this time of year eat more than usual. That is all very well, but the skins, doctors say, ought to be washed before eating.

What? Wash a plum? Certainly, wash or peel a plum. Do not eat the peach skin at all. Wash an apple? What nonsense. Wash it and rub it dry. If outdoors, rub it thoroughly.

Commercial trees are sprayed. Sometimes particles of the spray are left, not enough to be really dangerous, but enough to make a child sick if he eats a lot, as what child loose in an orchard won't? In the city there is always street dust. Micro-organisms grow on fruit skins. Some physicians studying causes of infantile paralysis, whose peak always comes about this time of year, suspect fruit skins. Why take that chance?

FIRMNESS WITH ARGENTINA

One trouble with the Argentine situation is the division of opinion in that country itself. Its governernment is Fascist, pro-German. It has given lip-service to a break with Germany but under cover it still serves the Axis.

It is believed that the mapority of the people are not pro-German, and not in favor of their present government. If they were, that government would not be afraid to call free elections. But they are all pro-Argentine. They do not like the United States because they are jealous of its power. They crave the hegemony of South America for their own country.

If they were all pro-German, had elected their government and supported it, our course would be simple. If, on the other hand, they had a freely elected government it would probably not be pro-German. But in any case—pro-Argentine.

American business men have alienated Argentines of all parties by being supercillious, counting the days till they could "go back to God's contry," packing exports carelessly and in other ways failing to give Argetine problems reasonable attention. Few of us know anything about South American countries or give their nationals due respect.

Argentina, however, is plainly playing Hitler's game, and firmness on our part is justified. She must declare herself either with us or against us. If with us, let her prove it by honestly casting out Hilerism. If against us—she'll be sorry. From Canada on down the other American nations are her real friends. Trusting Nazis leads only to destruction.

THE GREAT DRIVES

The Russians are, as usual, doing an incredible job. They are moving so fast that the lines almost dance along the map. The German weakness is more apparent on the eastern front than it is on the western, for the disaffection, begun under the surface with the loss of Stalingrad, has been spreading and rising into plain view. Even so, the Russian march is no picnic, but it goes straight on with the inevitability of a juggernaut, and it is headed straight for Berlin.

Drives in France are also moving. Here progress is slower, partly because of weather which for days at a time grounds air cover, without which advance is almost impossible, partly because here German defense is stiffer. Disaffection has as yet made no appreciable difference in German resistance in France.

It takes time for armies to crumble from within, especially armies trained so firmly and fanatically as those of the Nazis. For the moment Hitler's gangsters hold the reins. They cannot hold them forever. The situation inside Germany and in the ranks is too precarious. but because the bomb failed of its final intent, they can hold on for quite a while. They are, as Secretary of War Stimson says, "shot through with doubts, but by no means broken," and we are only now "beginning to apply the grinding pressure of superior power." Both the Russians and the western armies know that nothing but military force applied right up to the gates of Berlin can be depended on for actual victory.

UNEQUALLED CRIME

"A crime that has no equal in German history." So Hitler, with his customary conceit, describes the attempt to assassinate him.

Considering the crimes that the Nazis have committed since they came to power, that is going pretty strong.

Most people would think the attempt on Hitler's life one of the most creditable acts that the Germans have ever committed.

The Republicans managed their convention quietly and effectively, under cover, throwing out Willkie with the silent treatment. The Democrats managed theirs right out in public throwing out Wallace with sound and fury. Americans are funny. But why not? Who has a better right to be funny? At least we have conventions and elections.

WISE AND FOOLISH ANGLERS

He knew too much of how and when
And all that lies 'twixt wrong and right,
Of wind and tide, and where they hide,
To fish when bass aren't apt to bite.

He'd read the books wise men have penned;
Was versed in piscatorial lore.
When not to go, he claimed to know,
And so he seldom left the shore.

"You'll have no luck," he'd often say.
"The water's much too high or low.
The wind's not right; they'll never bite.
If I were you I wouldn't go."

Yet many a time some fishing fool
Whose knowledge of the signs was small,
At night would pass him by with bass
He never should have caught at all.

Plan Feature Tournament For Corsicana Fair

Old-timers in the six-county areas served by the Corsicana Livestock and Agricultural Show will greet with pleasure the announcement that an old-time tournament will be one of the feature atractions at the 1944 exposition, Sept. 12-16. This was decided at a meeting of local fair officials and law enforcement officers here Thursday night. The visitors were guests of W. E. McKinney, rodeo chairman, at a dinner at the Navarro Hotel, with the meeting held at the Chamber of Commerce headquarters.

Use 3-Inch Ring

A three-inch ring will be used with four rings to be placed on standards in the arena at the fair grounds. Practice tracks are expected to be provided at each of the county seats in this area.

Billiard cues will be used by the raiders as they seek to catch the rings in the tourney competition. Five-man teams from Navarro, Ellis, Hill, Limestone and Henderson counties will compete for the $100 war bond prize offered.

Practice will be allowed before the opening of each rodeo.

Drawings Before Fair

Drawings and pairings will be made before the fair, and the four highest-ranking teams after the first three nights will then contest for the prizes. The third and fourth ranking teams will compete for third place while the first and second teams will fight it out for first prize and the $100 war bond, according to Chairman McKinney.

Specifications for the practice standards and those to be used at the rodeo arena will be sent the contesting officers within the next faw days.

No Entrance Fee

The contestants must negotiate the distance and attempt to ring the four dangling rings wihin six seconds or be disqualified. Judges will be on hand for the competition. No entrance fee will be charged.

Among those attending were: Chairman McKinney, Manager Robert G. Dillard, W. M. Spear and Sheriff Curington, Corsicana; Dr. M. M. Brown of Mexia and his son, Lieut. M. M. Brown, Jr., U. S. Army; Sheriff Jim Sessions of Fairfield, Deputy Sheriffs Jack Johnson and F. E. Hamilton both of Hillsboro; and Deputy Sheriff Bill Gibson of Waxahachie. Sheriff Jess Sweeten of Athens was not present.

LT. JAS. BRANTLEY ARRIVES ETO FOR ADVANCED TRAINING

AN EIGHTH AAF COMPOSITE STATION NORTHERN IRELAND—First Lieutenant James Hugh Brantley arrived in European Theatre of Operations in June, 1944. His mother, Mrs. Jessie Watkins, lives at 1625 West Second avenue, Corsicana Texas. His wife, Mrs. Ruth Brantley, lives at 422 Alvarez Place San Antonio, Texas.

Lt Brantley is receiving at this station advanced training in airmanship and tactics.

This intensive training at this "finishing school" for B-26 Marauder crews is conducted by men who have completed combat tours over enemy territory and who can explain and demonstrate to newly arrived pilots and crews the tricks learned from and aboot the enemy. For many pilots and irews this added instruition has proven the difference between bringing back the plane and its valuable crew or dropping both plane and crew in enemy hands.

Lt. Brantley is a B-26 pilot. He received his pilot training at AAF schools locrted at Lubbock, Texas; Dodge City, Kas.; and Barksdale Field, La. He is a graduate of Lubbock, Texas, high school and of Texas A. and M. Upon completion of his college work in December of 1937 he enlisted in the service.

Former Resident Of Corsicana Wed Washington, D. C.

Of interest to Corsicana friends and relatives was the marriage of Miss Jane Christman, daughter of Mrs. Rel DeHart Christman of Honolulu, Hawaii, and the late Dr Daniel E. Christman, to Dr. Claude Carroll Albritton, Jr., son of Mr. and Mrs. Claude C. Albritton, 3436 University, Dallas, former residents of this city.

Miss Christman and Dr Albritton were married on Saturday afternoon at St. John's church in Washington, D. C., with the Rev. Howard Johnson officiating.

The rites were read before the altar, banked with fern and white altar candles. The altar baskets were filled with bouquets of white gladioli.

Given in marriage by John Lord O'Brien, the bride wore a gown of antique ivroy faille, trimmed at the deep V neckline with a self-scroll detail, which was repeated at the low pointed waistline. The long fitted sleeves terminated in points over the hand, and the very full skirt swept into a graceful train. Her fingertip-length veil of imported bridal illusion fell in circular tiers from a calot of the illusion over which was draped a band of heirloom rosepoint lace. She carried a prayerbook, showered with orchids.

Miss Betty Johnson of Buffalo, N. Y., maid of honor, wore a gown of ice-blue lace and chiffon. She carried a colonial bouquet of roses and forget-me-nots.

Mr. Albritton attended his son as best man.

Reception Follows Ceremony.

Following the ceremony, Mr. and Mrs. Albritton, Sr., entertained the bridal party with a dinner at the Shoreham Hotel. The table was banked with white roses, carnations and stock.

The couple will be at home in Washington, D. C., for the duration. Dr. Albritton, former Southern Methodist University faculty member, on leave, is in the military geology division of the United States Geological Survey in that city.

The bride was graduated from Punahou, Hawaii, the University of Hawaii, and did graduate work at the University of California. She was an active member of the Junior League of Honolulu. Dr. Albritton was graduated from Corsicana High School and SMU and received his doctorate from Harvard University. He was a member of Kappa Alpha Fraternity at SMU.

ported two miles from the center of St. Malo, which is connected with the mainland by a causeway. Besieged many times in ancient days, St. Malo never has been taken by storm.

The Garrison at Lorient on the south coast already had offered to surrender, not awaiting the arrival of the Americans who took the famous city of Auray, 18 miles west of Vannes and 18 miles east of Lorient.

At Brest, the French naval base at Brittany's tip. Americans were last reported in the outlying sctreets. No recent news had come from that sector. The last official announcement said the Americans had taken Huelgoat, 32 miles east of Brest and nine miles northwest of Carhaix.

Lt. Gen. Omar N. Bradley's ormor also has been reported in the outlying streets of St. Naire the big shipbuilding center and U-boat base at the mouth of the Loire and driving the last 15 miles toward Nantes, city of 195,000 a few miles up the river.

Nets Many Prisoners.

Shoving 31 miles northwest of Dinan, the Americans also captured St. Brieuc on Brittany's north coast, field dispatches reported.

The Yankee offensive in Brittany already had netted 13,300 prisoners and 3,400 Nazi dead, a sizeable addition to the divisions destroyed in the Normandy debacle.

In their eastward push the Americans already were closer to Paris than they were a week ago to the port of Brest, which they reached in a last-leg dash of 75 miles in a day.

Their four-headed push spread over a front of 50 miles extended from Domfront, 35 miles east of Avranches, straight down the Varenne and Mayenne river valleys through Mayenne, Laval, Houssay and Chateau-Gontier.

Five bridgeheads across these rivers had been gained and the American right flank was only 25 miles north of the Loire.

The British thrust, driving into the fringes of the Cingalis Forest, cut deep behind the enemy's gun-bristling anti-tank screen in the "Normandy Switzerland" below Caen.

Other allied troops took Vire—the Germans last real anchor in Western Normandy. The fall of this major communications center, furiously defended for weeks by the Germans, opened the way for linking the initial Normandy cleanup with the new drive eastward from Brittany.

Take High Point.

Near the left flank of the allied lines, British troops swept onto 1,200-foot Mont Pincon, on the west side of the Orne almost 20 miles below Caen. This advance of four miles was the farthest penetration yet made up the river.

The British southward push threatens to complete the rout of the Germans from all of Northern Normandy west of the Orne. British, Canadian and American troops now are strung out along a line running in a general north-south direction, and are pushing drives aimed at forcig a corridor 100 miles wide tharough the heart of France.

Near the south end of this line in Brittany the Germans have been cleared from Chateau-Gontier, 140 miles from Paris. American units now have crossed the Mayenne river barrier in five places—Ambrieres, Mayenne, Laval, La Houssaie and Chateau-Gontier. The southern, or right, flank of this drive is only 25 miles above the Loire river.

Fifty-Mile Front.

The push to Domfront, 25 miles east of Avranches, created a front 50 miles wide along the *north-south* Mayenne river and its northern extension, the Varenne river, which would be a natural defense line if the German resistance in that area were not dissolving. This 50-mile front of the Americans represents the southern part of the whole allied line pointed toward interior France.

The fall of Vire opens up the road from there 15 miles to the south of Mortain already captured in the push east from Avranches and Brecey.

Nazis Move Offices.

The British radio said nazi occupation authorities in France had moved their administrative offices from Paris eastward to Nancy nearer the German border. A similar report came from Switzerland.

In Brittany the Germans were putting up some resistance at Brest and St. Malo but the garrisons there were doomed since the nazis obviously had written off the peninsula, having withdrawn the bulk of their forces last week. The Algiers radio reported that Gen Chas. De Gaulle's organization had called on Bretons to conduct a general uprising against the Germans.

The Lorient submarine pens were bombed late yesterday by RAF heavy bombers as Brest's were Saturday to block the escape of nazi U-boats. Allied navies were blockading the Breton peninsula to prevent Germans escapes to Bordeaux and other ports.

British Win Sea Fight.

In its latest communique the admiralty disclosed that light British forces yesterday met five heavily armed escort vessels and in a fierce battle of torpedoes sank an armed trawler, probably sank another vessel and damaged the rest with only slight damage to the British ships.

The Breton peninsula now has been cut at two places—(1) at the mouth of the Loire river between the great river port of Nantes and France's big shipbuilding center of St. Nazaire, and (2) at Vannes, midway between St Nazaire and the nazi U-boat port of Lorient.

As the lightning campaign in Brittany entered its sixth day, there was promise that American troops soon woud possess its five great ports, valuable for building up the invasion frces.

Naval officers predicted that when this climax is reached the Germans never again would be able to strike in great strength with their submarines.

Americans Battle For St. Malo

... the battle for St. Malo the ...icans are encountering stiff ...istance four miles from the city. Heavy resistance, too, has been met east of Laval in the drive towards Paris.

The attack on St. Malo had advanced about three miles from the last reported position at Chateau Neauf-D Ille-Et-Vilaine on the east side of the Rance river Estuary.

Troops in Lorient on the south side of Brittany sent word to U. S. troops advancing from Vannes that they wanter to surrender to keep out of the hands of the French.

Another force of 1,200 Germans asked the Americans to accept their surrender, but the rapidly advancing column sent word back that they would have to surrender to somebody else because it was too busy.

ment of Thursday that "all the employes will continue in the capacity they held" before the walkout. General Hayes did not mention specifically the eight trainees.

For three days the strikers disregarded the appeals of government officials, community leaders and officers of their own CIO Transport Workers Union.

Then the army took over. Maj. Gen. Philip Hayes, seizing the system by order of President Roosevelt, said "the war cannot wait." He conferred briefly with government agency officials.

Federal Actions.

2—The War Manpower Commission denied further employment "for the duration"—and unemployment compensation—to any who declined to return. They were refused referral cards or statements of availability.

3—The WMC and the War Production Board warned industries not to hire strikers on penalty of having their war contracts cancelled and their employes released to other industries'

Deferments Cancelled.

4—National selective service, at the request of Acting Secretary of War Robert P. Patterson, cancelled the occupational deferments of all and ordered their immediate induction.

5—The OPA denied them gasoline, shoe and food rations issued on the basis of essential employment.

6—U. S. Attorney General Biddle ordered an investigation to determine whether any federal law had been violated and alos requested a federal grand jury inquiry.

For a time shortly before the army's readline, a new outbreak of race trouble was threatened.

The army public relations office said today that the report that a Southern soldier guarding a trolley segregated white and negro passengers was not true. A spokesman said the report apparently was based on an ordinary "move back in the car, please" command, addressed to all passengers.

Negroes Massed.

Dismounting negroes spread the word, an angry crowd of 400 negroes massed to await the return of the trolley and the guard. But radio cars escorted the vehiclue through the negro district without incident, Dr. John P. Turner, negro leader, told it that the soldier had been re-assigned, and the crowd dispersed.

The husky, 43-year old McMenamin, who lost 20 pounds during the strike, was arrested in the studios of Radio Station WCAU after he broadcast a back-to-work appeal.

"You men," said U. S. Commissioner Norman J. Griffin, "have given Philadelphia one of the worst weeks in its history."

A union official called it a week of "nightmares."

During the week 14 persons were hospitalized, after racial clashes; war work slumped an estimated 15 per cent; merchants lost $5,000,000 in business; the strikers lost some $250,000 in wages; PTC lost $650,000 in revenue, and 1,500,000 daily PTC riders were forced to walk, hitch-hike, use precious "gas," or travel crowded in industry- provided trucks.

races where there are run-offs showed:

For Attorney General—Grover Sellers 373,056; Jesse E. Martin, 298,554; Fred Erisman, 122,083. (Sellers and Martin in run-off.)

For Associated Justice of Supreme Court—Richard Critz 289,679; Tom Smiley, 84,263; James B. Hubbard, 72,953; Gordon Simpson 181,284; Charles R. Rowland 125,580. (Critz and Simpson in run-off).

The committee today completed its canvas of votes cast in the July 22 primary election and made preliminary plans for the Sept. 12 state convention in Dallas which will have important bearing on differences existing in party ranks.

Undetermined at today's meeting was the apportionment of state convention votes among the counties.

The question involved is whether the allocation shall be made on the basis of the total vote for governor in the July 22 election or on the vote for the candidate receiving the highest number.

Chairman George A. Butler of Houston was authorized to appoint sub-committees to arrange for the Dallas convention, including one on credentials.

Number of Contests.

Butler said he thought such a sub-committee should be named because there apparently were quite a few contesting delegations and the contests should be determined in advance of the state meet. It was pointed out that although the executive committee through its sub-committee would have first say in settling contests the convention itself has the final word.

The September convention is traditionally called the governor's convention since the Democratic nominee for that post is considered the party hear in Tevas and usually indicates his choice for chairman of the executive committee for the next two years.

In committee discussion the words "governor's convention" was emphasized. Gov. Coke R. Stevenson has taken no hand in the party squabble regarding presidential electors.

The vote canvas showed that Governor Stevenson was renominated with 696,585 votes.

British Cross Orne River

ON THE ORNE FRONT, France, Aug. 7 — (AP)—British infantry sweeping across the Orne river on a two-mile front drove today into the western fringes of the Forest De Cinglais in a sudden move threatening to outflank German defenses on the vital Hunge.

The thrust cut deep behind the enemy's gun-bristling defense facing Caen on a line from May-Sur-Orne astward through Roquancourt, Tilly La Campagne, La Hogue and Vimont.

Germans Shell Florence

In Italy German shells plumped into Allied-held southern sections of Florence, and Allied patrols crossed to the north banks of the Arno river to feel out Nazi strength in the eternal city. "There will be no need," said General Alexander's *headquarters*, "for the city itself to become a battleground.' Since Cassino, the Allies have caged more than 50,000 prisoners.

Berlin radio said Allied planes again were striking today from the west and south against Hitler's bomb-pocked European *fortress*.

The daylight attacks followed by co-ordinated blows Sunday by more than 2,000 heavy bombers, raining ruin on Berlin, the Hamburg, Kiel, and French Toulon areas. Ploesti and the Bucharest area were hit. Big RAF planes smote the rail junction of Hazelbrouch below Dunkerque last night and Mosquito bombers struck targets in France and Germany..

Thirteen Nazi Divisions

The Allied land and air offensives struck with telling effect. One of Gen. Montgomery's senior British staff officers asserted 13 German divisions had been thoroughly eliminated in France, predicted "the next two or three weeks may be the most critical of the war for Germany."

Mopping up the Breton peninsula, doughboys battled for the western tip port of Brest, closed in an the southern ports of St. Nazaire, Nantes, and Lorient, and the northern coastal port of St. Malo. Supreme headquarters announced that the Germans in the submarine and naval baso of Lorient had asked to surrender.

German Armed Trawler Sunk.

LONDON, Aug. 7.—(AP)—One German armed trawler was sunk and another probably sunk by light coastal forces of the Royal Navy in an encounter yesterday with five armed escort vessels off the Brittany coast north of St. Malo, an admiralty communique said today.

Rude Awakening.

LONDON, Aug. 7.—(AP)—Prof. Harold Laski, widely known British economist, had a rude awakening recently when a German flying bomb struck a coast hotel. Laski's bed fell five stories through a gaping hole torn by the bomb blast, but landed right side up with the professor still in it—wide awake but unhurt.

Von Papen In Bulgaria.

LONDON, Aug. 7.—(AP)—Berlin broadcasts said today that Franz Von Paper, former German ambassador to Turkey, has arrived in Bulgaria enroute to Germany.

Bulgaria Seeks Guarantee

NEW YORK, Aug. 7—(AP)—The British radio said today that "it is learned in Ankara that Bulgaria is seeking an Allied guarantee of her independence within her pre-war frontiers as the price of getting out of the war."

Plan Extension.

NEW YORK, Aug. 7.—(AP)—The National Association of Manufacturers says top administration leaders are considering a British request for extension of lend-lease aid beyond the war in Europe, as a prop for Britain's domestic economy.

War Not Over

WICHITA, Kas., Aug. 7—(AP)—"Aircraft employees must not think the war is over," Lt. Gen. William S. Knudsen, director of AAF material and services division, said yesterday in dscussng progress on B-29 Superfortresses bomber production with army and bomber plant officials. "There's a long job ahead. A U. S. BASE IN FRANCE, Aug. 7—(AP)— Maj. Gen. Henry B. Sayler, chief ordnance officer, said today that captured guns, tanks and automobiles indicated Germany was not suffering from any shortage of critical materials.

"Their material continues good," he told correspondents, "but ours is better." He added that the ordnance department was preparing for the war to continue "at least several months."

The important Arno river towns of Montelupo and Empoli remained in no man's land, with patrols entering and then withdrawing.

Germans Being Rooted Out

In the great bend of the Arno east of Florence the Germans still were resisting on the ridge southwest of Pontassieve, but were being rooted out.

Despite continued Nazi shelling in the southern part of the city, Alexander's headquarters declared again "our guns are not shelling any part of the city."

The enemy was seen using pack trains on the steep slopes of Monte Pisano, the hill mass northeast of Pisa. This elevation is the site for big guns which occasionally shell the Livorno harbor.

Indian and British units made advances despite stubborn resistance in the rough country northwest of Arezzo. In the upper Tiber valley northwest of Umbertide, San Sepolcro and San Giustino were cleared of the enemy.

Hit at Nazi Oil Supply

Other Mosquitos continued the assault on *Germany's shrinking oil* supply by bombing a synthetic oil plant at Castrop-Rauxel, near the eastern end of the Ruhr, and still others returned with two ton blockbusters to the off-battered city of Cologne.

More than 2,000 American heavy bombers hit Berlin and other German industrial centers yesterday. Lt. Gen. James H. Doolittle, commander of the Eighth U. S. tactical air force, said air attacks had curtailed production seriously at 23 of Germany's major oil refineries and synthetic oil plants.

The Mediterranean air force flew 2,100 *sorties* Sunday while fighter planes were coming from Russia, more than 500 U. S. 15th air force heavy bombers flew over southern France and smashed at 14 objectives.

The heavy bombers scored good results on four of five railway bridges along the lower Rhone, a historic invasion route; left fires *burning in submarine pens* at Toulon and cut most of the tracks in the rail yards at Miramas.

Only in the Baltil states and on the northern slopes of the Carpathians did the war remain fluid. (The Germans asserted they had recaptured Jelgava in Latvia in the ten-mile corridor to the Baltic west of Riga.)

Russian pressure was fiercely intense against all German strongpoints. Steadily encroaching westward along the Carpathians, the Red army neared the moment when it could launch powerful blows towrad the Danube basin which is *Germany's* bread basket.

Warsaw, under siege for more than a week, seethed with street fighting between Poles and the German garrison. Fires still burned in the city from German demolitions. Marshal Konstantin Rokossovsky *presumably* was continuing to probe with Russian and Polish infantry for crossings of the broad, swift Vistula which would outflank the Polish capital from north and south.

Nazi resistance was fierce, but Russian troops erected signposts showing the dwindling mileage to the border and wrota underneath: "Onward Comrades."

House Joint Resolution

H. J. R. NO. 8

proposing an amendment to Section 51 of Article 3 of the Constitution of the State of Texas, by adding thereto Sections 51-e and 51-f; Section 51-E providing that cities and towns in this State shall have the power and authority to provide a system of retirement and disability pension for its employees, provided, however, that no pension system shall be set up in any city until it has been approved at an election by qualified voters entitled to vote at an election on the question of the issuance of tax supported bonds; Section 51-f providing that the Legislature shall have authority to provide a system of retirement and disability pensions for appointive officers and employees of cities and towns to operate Statewide or by districts under such plan or program as the Legislature shall direct and shall provide that participation therein by cities and towns shall be voluntary; provided that the Legislature shall never make an appropriation to pay any of the cost of any system authorized by this Section; providing for an election on the question of the adoption or rejection of such an amendment and making an appropriation therefor; providing for the proclamation and publication therefor and prescribing the form of ballot.— —

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Section 51 of Article 3 of the Constitution of the State of Texas be amended by adding thereto Sections 51-e and 51-f, which shall read as follows:

"Section 51-e, Each incorporated city and town in this State shall have the power and authority to provide a system of retirement and disability pensions for its appointive officers and employees who have become disabled as a direct and proximate result of the performance of their duties, or have passed their sixty-fifth birthday, or have been employed by such city or town for more than twenty-five (25) years and have pased their sixtieth birthday, when and if, but only when and if, such system has been aproved at an election by the qualified voters of such city or town entitled to vote on the question of issuance of tax suported bonds; provided that no city or town shall contribute more than the equivalent of seven and one half (7 1-2) per centum of salaries and wages of the officers and employees entitled to participate in its pension system, and that said officers and employees shall contribute a like amount; and this Amendment shall not reduce the authority nor duty of any city or town otherwise existing.——

"Section 51-f The Legislature of this State shall have the authority to provide for a system of retirement and disability pensions for appointive officers and employees of cities and towns to operate Statewide or by districts under such a plan and program as the Legislature shall direct and shall provide that participation therein by cities and towns shall be voluntary; provided that the Legislature shall never make an appropriation to pay any of the cost of any system authorized by this Section."——

Sec. 2. The foregoing Constitutional Amendments shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State in November, 1944, at which all ballots shall have printed thereon, "For the Constitutional Amendment providing that the cities and towns in this State shall have the power and authority to provide a system of pensions for their appointive officers and employees," and "Against the Constitutional Amendment providing that all cities and towns in this State shall have the power and authority to provide a system of pensions for their appointive officers and employees." All ballots at such election shall also have printed thereon, "For the Constitutional Amendment giving authority to the Legislature to provide for a system of retirement and disability pensions for appointive officers and employees of the cities and towns" and "Against the Constitutional Amendment giving authority to the Legislature to provide for a system of retirement and disability pensions for appointive officers and employees of cities and towns." Each voter shall scratch out two (2) of said clauses on the ballot, leaving the two (2) expressing his vote on the proposed Amendments.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election and shall have the same published as required by the Constitution for Amenlments thereto.

Sec. 4 The sum of Five Thousand Dollars ($5,000), or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State, not otherwise appropriated, to pay the expenses of such publication and election.

House Joint Resolution

H. J. R. No. 18

proposing an Amendment to Section 9 of Article 8 of the Constitution of the State of Texas, by changing said Section 9 so as to provide that the Commisioners Court in any county may re-allocate the county tax levies authorized in said section by changing the rates provided for any of the purposes authorized in said section by either increasing or decreasing the same, but in no event shall the total of such taxes exceed eighty (80) cents on the one hundred dollars valuation for any one year; providing that before such Commissioners Court may make such re-allocations and changes in such levies that the same shall be submitted to the qualified property tax paying voters of such county at a general or special election and shall be approved by a majority of the qualified property tax paying voters, voting in such election; providing that if and when such re-allocations and changes in such county tax levies have been approved by the qualified property tax paying voters of any county as herein provided, such re-allocations and changes shall remain in force and effect for a period of six (6) years from the date of the election at which same shall be approved, unless the same again shall have been changed by a majority vote of the qualified property tax paying voters of such county, voting on the proposition, after submission by the Commissioners Court at a general or special election for that purpose; providing that this section shall not be construed as a limitation on powers delegated to counties, cities or towns by any other section or sections of this Constitution; fixing the time for the election for the adoption or rejection of said proposed Constitutional Amendment; making certain provisions for said election and ballots thereof and the method thereof; directing the issuance of proclamation therefor; prescribing certain duties of the Governor of the State of Texas; and making an appropriation to defray the expenses of said election.——

Be It Resolved By The Legislature Of The State of Texas:

Section 1. That Section 9 of Article 8 of the Constitution of the State of Texas, be so amended that the same will hereafter read as follows:

"Section 9. The State tax on property, exclusive of the tax necessary to pay the public debt, and of the taxes provided for the benefit of the public free schools, shall never exceed thirty-five (35) cents on the one hundred dollars valuation; and no county, city or town shall levy more than twenty-five (25) cents for city or county purposes, and not exceeding fifteen (15) cents for roads and bridges, and not exceeding fifteen (15) cents to pay jurors, on the one hundred dollars valuation, except for the payment of debts incurred prior to the adoption of the Amendment September 25, 1883; and for the erection of public buildings, streets, sewers, waterworks and other permanent improvements not to exceed twenty-five (25) cents on the one hundred dollars valuation, in any one year, and except as is in this Constitution otherwise provided; provided however, that the Commissioners Court in any county may re-allocate the foregoing county taxes by changing the rates provided for any of the foregoing purposes by either increasing or decreasing the same, but in no event shall the total of said foregoing county taxes exceed eighty (80) cents on the one hundred dollars valuation, in any one year; provided further that before the said Commissioners Court may make such re-allocations and changes in said county taxes that the same shall be submitted to the qualified property tax paying voters of such county at a general or special election, and shall be aproved by a majority of the qualified property tax paying voters, voting in such election; and, provided further, that if and when such re-allocations and changes in the aforesaid county taxes have been approved by the qualified property tax paying voters of any county, as herein provided, such re-allocations and changes shall remain in force and effect for a period of six (6) years from the date of the election at which the same shall be aproved, unless the same again shall have been changed by a majority vote of the qualified property tax paying voters of such county, voting on the proposition, after submission by the Commisioners Court at a general or special election for that purpose and the Legislature may also authorize an additional annual ad valorem tax to be levied and collected for the further maintenance of the public roads; provided, that a majority of the qualified property tax paying voters of the county voting at an election to be held for that purpose shall vote such tax, not to exceed fifteen (15) cents on the one hundred dollars valuation of the property subject to taxation in such county. And the Legislature may pass local laws for the maintenance of the public roads and highways, without the local notice required for special or local laws. This section shall not be construed as a limitation of powers delegated to counties, cities or towns by any other section or sections of this Constitution."——

Section 2 The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at a general election to be held throughout the State of Texas on the seventh day of November 1944, at which election all voters favoring the proposed Amendment shall write or have printed on their ballots the following words:

"For the Amendment to Section 9 of Article 8 of the Constitution of the State of Texas, so as to provide that the Commisioners Court in any county may re-allocate the county tax levies authorized in said section by changing the rates provided for any of the purposes authorized in said section by either increasing or decreasing the same, but in no event shall the total of such taxes exceed eighty (80) cents on the one hundred dollars valuation for any one year; providing that before such Commisioners Court may make such re-allocations and changes in such levies that the same shall be submitted to the qualified property tax paying voters of such county at a general or special election and shall be aproved by a majority of the qualified property tax paying voters, voting in such election; providing that if and when such re-allocations and changes in such county tax levies have been approved by the qualified property tax paying voters of any county as herein provided such re-allocations and changes shall remain in force and effect for a period of six (6) years from the date of the election at which same shall be approved unless the same shall have been changed by a majority vote of the qualified property tax paying voters of such county, voting on the proposition, after submission by the Commissioners Court at a general or special election for that purpose; and providing that this Amendment shall not be construed as a limitation on powers delegated to counties, cities or towns by any other section or sections of the Constitution."——

Those opposing said proposed Amendment shall write or have printed on their ballots the following words:

"Against the Amendment to Section 9 of Article 8 of the Constitution of the State of Texas, so as to privode that the Commisioners Court in any county may re-allocate the county tax levies authorized in said section by changing the rates provided for any of the purposes authorized in said section by either increasing or decreasing the same, but in no event shall the total of such taxes exceed eighty (80) cents on the one hundred dollars valuation for any one year, providing that before such Commissioners Court may make such re-allocations and changes in such levies that the same shall be submitted to the qualified property tax paying voters of such county at a general or special election and shall be approved by a majority of the qualified property tax paying voters, voting in such election; providing that if and when such re-allocations and changes in such county tax levies have been approved by the qualified property tax paying voters of any county as herein provided, such re-allocations and changes shall remain in force and effect for a period of six (6) years from the date of election at which same shall be approved, unless the same shall have been changed by a majority vote of the qualified property tax paying voters of such county, voting on the proposition, after submision by the Commissioners Court at a general or special election for that purpose; and providing that this Amendment shall not be construed as a limitation on powers delegated to counties, cities or towns by any other section or sections of the Constitution."——

..If it appears from the returns of said election that a majority of the votes cast are in favor of said Amendment, the same shall become a part of the State Constitution.

Sec. 3. The Governor of the State of Texas shall issue the necessary proclamation for said election, and shall have the same published as required by the Constitution and Laws of this State.

Sec. 4 The sum of Five Thousand Dollars ($5,000), or so much thereof as may be necesary, is hereby appropriated out of any funds in the Treasury of the State, not otherwise appropriated, to pay the expenses of such publication and election.——

fourth term issue since May 23, when two conventions were held, named Herman Jones, Austin attorney, as chairman of its statewide organization. Mrs. Alfred Taylor of Austin was made secretary. Jones was chairman of the pro-Roosevelt delegation to Chicago; Mrs. Taylor led the walk-out from the regular state convention here May 23.

There will be a chariman for each senatorial district, and for each county. These workers will contact every Roosevelt delegate to make sure he either attends the Sept. 12 convention, or puts his proxy in the right hands. They will attempt to swing uninstructed delegations not bound under the Unit rule.

A finance and steering committee will function, with state headquarters at Austin, A sub-headquarters will be set up at Dallas to attend to preconvention arrangements there.

Much Fighting Talk

Yesterday's cacus erupted much fighting talk. There were only a few signs of appeasement of possibility of compromise between the two factions if the pro-Roosevelt group gets the upper hand at Dallas.

Jones cautioned the caucus not to put the cart before the horse, suggesting that nothing would be accomplished by "cussing the electors and the executive committee." He said the meeting's chief objective was to set up an airtight organization.

Joe E. Webb of Madisonville, speculating on what should happen if the pro-Roosevelt group controls the convention, said "let's give them unshirted hell."

Would Make Examples

Joe Farabe of Wichita Falls wanted to make sure leaders were selected who were "right."

Former Mayor George Sergeant of Dallas said an example should be made of E. B. Germany and C. C. Renfro, Texas regular delegates who walked out on the Chicago convention,, Germany is an elector.

Jones said that he was for welcoming back individuals who would demostrate they were loyal Democrats, "despite what happened in May."

Let's set up a Democratic organization, not pro, or anti, or rump, but Democratic," he said.

"We have ceased to be rump and now we are the whole horse."

Outlining legal phases of the elector situation, Woodville Rogers of San Antonio declared that there is nothing in the statutes which says that the May 23 convention is the one to nominate electors, but the law is plain as to the function of the September convention in certifying candidates.

His idea was that electors who refused to say how they would cast their ballots, who who said they would cast them for some other candidates than Roosevelt and Truman, should be stricken from the list certified, and the names of others substituted for certification.

"If the secretary of state should refuse to certify them, then we would have another court battle," he said.

National Committeeman Myron Blalock currently is polling the electors to determine how they will vote.

WOMEN OF STATE H. D. ASSOCIATION TO CHANGE A. AND M.

AUSTIN, Tex., Aug. 5—(AP)—Leaders of the 40,000 Texas Farm Women who make up the state Demonstration Association today made plans for a campaign to bring about re-organization of the board of directors of Texas A. and M. College.

Mrs. Leon Sullivan, of Red Oak, president, said the women would like to see the board enlarged, with provisions that one member be selected from each of the state's 31 Senatorial districts, and that women be included.

Yesterday, president Gibb Gilchrist of A. and M. told the Home Demonstration Association's directors he felt it was their duty to accept the appointment of Miss Maurine Hearn as state Home Demonstration Agent and vice-director of the extension service.

Gilchrist, after conferring two hours with Mrs. Sullivan and members of the HDA board, issued a statement in which he said that Miss Hearn was "wholly competent."

Directors of the HDA are seeking her removal, and plan to continue their fight. Friends of Miss Hearn also said they would continue to campaign in behalf of her retention.

She was named state agent recently, replacing Miss Mildred Horton.

Information From Navarro County Rationing Board

OPA LAW CHANGES—OPA investigators may now buy goods for evidence of violations. Moreover, OPA itself may now sue retailers for damages for overcharges. Formerly, only the customer could sue.

Minimum damages may be from $2 to $50 or from the amount of the overcharge to three times that much, at the discretion of the judge. Only $25, or the overcharge, is greater, plus fees and costs may be collected of the offender did not break the law wilfully.

ENFORCEMENT RECORD—Enforcement department of OPA obtained 918 civil judgments or criminal convictions in court proceedings completed during the month of April. These included 61 treble damage suits, 475 injunction suits, and 382 criminal actions. Proceedings to obtain suspension orders that were completed in April resulted in 1,073 establishments being suspended from realing in certain rationed commodities.

In 1943 OPA won 96 per cent of its court cases.

COST OF RUNNING OPA—The cost of running OPA through the 12-months ending June 31, 1944, averages down to $1.33 per person in the U. S. This sum is divided as follows: Rationing, 41 cents; rent control, 11; price control, 28; information, 2, and local boords, 51.

J. R. DONNELL AGAIN THANKS HIS FRIENDS.

I wish again to express my sincere appreciation to the many friends who supported me in the first primary, enabling me to lead in the run-off primary August 26th.

I am grateful for the many promises of support from those that voted for Mr. Hardy in the first primary and hope many more of his friends will aid me in winning the August 26th primary.

To all the voters of Navarro county I promise that if I am elected to the State Legislature I will sincerely strive to impartially represent all alike, farmer, business man, professional man and laborer. My life long study of legislative questions, plus my legislative experience insures you good service.

Do not fail to vote August 26th and be sure to leave my name on the ticket. Remember Experience Counts Now More Than Ever.

J. R. Donnell,
Candidate for The Legislature.
